## OFFERING OF CATTLEYA AND ALLIED GENERA Flasks, Bare Root Seedlings, and Community Pots

Very fine plants, some recently imported from England, were used as parents of the following list of Cattleya and allied genera crosses. We believe all of them will be outstanding and intend to retain a sizable block of each cross for our own cut flower purposes.

250 cc FLASKS usually contain well over 100, and  
500 cc FLASKS over 200 seedlings each.

BARE ROOT SEEDLINGS are sturdy little plants, out of flasks ready for community pots, or if you prefer, to transplant to new flasks.

COMMUNITY POTS contain 20 or more healthy, well established seedlings.

Stock in each group is not unlimited so you might save correspondence by making second and third choices.

We ship flasks and community pots express collect, bare root seedlings air mail, prepaid. We will ship one flask or one community pot as desired, but on bare root seedlings, we ask a minimum order of six dollars, (\$6.00)

We pack carefully, and ship promptly on receipt of order. Any damage in transit should be reported to the carrier immediately and their claim forms properly made out. It is always safer to open shipments in the presence of the delivery agent.

We do not believe in "bargains". We place a price on our material that we believe is fair to you and to ourselves. Because we can save on packing and handling costs on larger orders we offer a 10% discount on orders in excess of one hundred dollars (\$100.00)

This offer, which cancels all previous seedling offers, is made subject to prior sale. We can not guarantee the productiveness of the plants or your crop. Our liability is limited, in any event, to the purchase price of the plants.

ORCHIDS BY TURNER, INC.

NORTH ATTLEBORO, MASS.

#T-1 L.C. CALLISTOGLOSSA, Dixon var. X C. TRIANAE DARK LAVENDER

The parents used were both very fine dark lavender blooms. This cross should blossom in the late fall and through the holidays.

Comm. pots \$7.50

#T-2 L.C. KING GEORGE V alba X L. PURPURATA alba WHITE COL. LIP

The KING GEORGE used carried four 7" blooms with pure white, well rounded sepals and petals, the lip was a rich maroon purple. The PURPURATA, so often used as a parent of white with colored lip was a 6" bloom of excellent texture, white sepals and petals and a dark velvety lip. These should bloom for June weddings and be prolific.

500 cc Flasks \$15.00  
Bare root, doz. 2.00  
Comm. pots 7.50

#T-4 L.C. APHRODITE (L. PURPURATA alba X MENDELII alba)

WHITE COL. LIP

This is a remake of a famous cross in alba form. The MENDELII was an excellent texture 6" bloom pure white sepals and petals, with a soft lavender lip beautifully fringed. The PURPURATA described above. Should bloom late spring.

250 cc Flasks \$10.00  
500 cc " 15.00  
Bare root, doz. 2.00  
Comm. pots 7.50

#T-5 C. FREDA SANDER (C. MOSSIAE WAGNERI LAWNACRES  
A. M. A. O. S. X C. MYRA PETERS) WHITE

The Mossiae used was a very heavy textured pure white with some yellow in the lip. The sepals and petals were very round and full. It had excellent carriage. The MYRA PETERS a very heavy textured, crisp pure white with practically no yellow in the lip. We believe that this cross will provide us with outstanding whites for spring. It should be prolific with mossiae vigor.

250 cc Flasks \$17.50  
Bare root, doz. 3.00  
Comm. pots 10.00

ORCHIDS BY TURNER, INC.

NORTH ATTLEBORO, MASS.

#T-9 L.C. SUTTERS GOLD (L.C. CARMENCITA X C.MRS. MEDO) YELLOW

CARMENCITA has canary yellow sepals and petals with an open, strong maroon lip. The MRS. MEDO is a lemon yellow heavy texture full dark lip. Late fall..

500 cc Flasks \$25.00  
Bare root, doz. 3.00  
Comm. pots 10.00

#T-12 S.L.C. EDIMONA X L.C. CARMENCITA

RED BRONZE

This is a sixth generation SOPHRONITIS cross. The EDIMONA is difficult to describe, but will try. It had 4" blooms brilliantly colored red, bronze and yellow, tips of the sepals even showing cerise. The CARMENCITA strong yellow with maroon lip. We hope to again increase the size of the SOPHRONITIS. Those that follow its coloring should be terrific.

250 cc Flasks \$17.50  
500 cc " 25.00  
Bare root, doz. 3.00  
Comm. pots 10.00  
(late fall)

#T-13 C. CAMERONIAN X L.C. NELLA

PINK

The CAMERONIAN is an extremely showy flower background white suffused cerise to strawberry, large blooms 7" to 8", luminous. The NELLA medium dark, well carried. We are hoping for brilliant coloring for late fall.

250 cc Flasks \$17.50  
500 cc " 25.00  
Bare root, doz. 3.00  
Comm. pots 10.00  
(late fall)
